

WARNINGS:

Handle with care.

Poisonous by contact, swallowing or inhalation.

Toxic to fish and animals. Toxic to bees.

May cause irritation of the skin, eyes, mucous membranes and skin sensitization.

Keep out of reach of children, uninformed persons and animals.

Store in a cool place away from food and feedstuffs.

Use of this material in a manner other than in accordance with directions, may injure plants or produce undesirable results.

PRECAUTIONS:

Do not use in the presence of persons with known sensitivity to pyrethroids or neonicotinoids.

In the case of signs of sensitivity, obtain medical advice.

Do not inhale spray mist.

Wear gloves when preparing the spray mixture. Wash clothing if contaminated.

Wash immediately after accidental skin contact with soap and cold water.

Do not eat, drink or smoke whilst applying, mixing or before washing hands and face.

1.

Prevent contamination of fish ponds, food, eating utensils and drinking water.

Clean applicator thoroughly before re-using with other material.

Dispose of wash water where it will not contaminate edible crops or water.

Keep animals and children away from spilt material.

Rinse empty container three times with a volume of water equal to 10 % of that of the container. Add the rinsings to the contents of the spray tank before destroying the container. Destroy empty container and do not re-use for any other purpose.

SYMPTOMS OF POISONING

Excitement, gastrointestinal discomfort, tremor, dizziness, headache, listlessness, nausea and vomiting, epigastric pain, muscular fasciculation of limbs, unconsciousness, convulsions and coma (very high doses).

FIRST AID TREATMENT

Remove patient from source of poisoning to a well-ventilated area and keep him quiet and reassured. Remove contaminated clothing and rinse contaminated body area thoroughly with plenty of soap and cold water.

After eye contact, flush contamination out of eyes with clean water and call a doctor. If swallowed do not induce vomiting. Wash out mouth with water and call a doctor immediately.

NOTE TO PHYSICIAN

Treat symptomatically. Check blood pressure and pulse rate frequently (bradycardia and hypotonia possible). Provide supportive measures for respiratory and cardiac action. Give artificial respiration if signs of paralysis appear. Additional measures involve the elimination of the substance from the body or acceleration of its excretion (gastrolavage).

DIRECTIONS FOR USE: USE ONLY AS DIRECTED.

Temprid® SC can be used in indoor and outdoor areas of commercial and industrial premises, offices, store rooms, hospitals, schools, barracks, homes, hotels, restaurants, ships, market places, warehouses, empty silos and stables.

Shake well before measuring

PEST	DOSAGE	REMARKS
Cockroaches (American and German), Fishmoths	Normal conditions: 20 mℓ / 10 ℓ water High infestation: 40 mℓ / 10 ℓ water	Thoroughly spray hiding places (e.g. cracks and crevices, behind stoves and sinks, in cupboards, around drains and rubbish bins etc.) and other areas where pests occur with 50 m/ spray mixture/m². If hiding places are not directly accessible spray a barrier around them. The spray deposit should not be washed off.

2. 3.
