

Pest Control Notice

Roach Preparation & Treatment

Your home has been scheduled for treatment either for preventative purposes, or to address a current pest issue on:

Date & Time: _____

In preparation of the service, please remove all possible items from both the kitchen and bathroom cabinets. Please be sure to maintain a clean kitchen and living area to avoid attracting or worsening any possible pest issues.

Do not use any over-the-counter pesticides as an attempt to control current pest issues. Instead, please contact the office for professional treatment.

Your home may be scheduled for follow-up service 7-14 days following this treatment.

Thank you for your cooperation in this service! Working together as a team, we will eliminate pest issues as soon as possible. Please note, there could be a fee related to refusal of service or non-preparation.
